

## ENS-EYECONNECT-32 (For Windows)

### FEATURES

- Supports face statistics in list or graphics
- Supports managing up to 32 people counting cameras in one zone and displaying real-time statistics
- Supports people counting statistics in list or graphics
- Add device via P2P
- Live view with audio and remote playback through P2P
- Switch P2P server region

### SPECIFICATION

MODEL	Model No.	ENS-EYECONNECT-32	
EYECONNECT SMART CLIENT EXPRESS	Type	CLIENT VIDEO MANAGEMENT SOFTWARE	
	Supported Devices	IPC, NVR, XVR, PTZ etc.	
	Max Channels	32 channels	
	Device Management	Add/delete/edit user and configure user authority, Set period of validity	
	System Framework		Common functions and basic functions
			Drag to add new function icon or remove it
	Login		Drag to change function icon order
			Create password when first start the software
			Support forgot password by protection questions
	Device Management		Auto login, remember password
		Support switching languages in login interface	
		Auto search devices within same LAN, supports batch and one-key addition	
		Support manual addition by IP, DDNS, EasyDDNS, P2P (Only for Windows version)	
		Support group management	
Preview		Support acquiring device channel name or sync channel name to devices	
		Support jumping to device IE interfaces in default browser	
		Support export and import of device and group organization list	
		Support device list and device online status	
		Support one-key to connect/disconnect all channels	
		Support 1/2/3/4/1-5/1-7/9/10/13/16/17/25/32 window division mode and customization of display split	
		Support to enable/disable audio and two-way audio	
		Support capture and one-key to capture all channels	
Playback		Support to switch main and sub stream, set video parameters	
		Support record and one-key to record all channels	
		Support PTZ control, focus, aperture, preset, light/wiper control	
		Support saving view, view rotating and group switch	
		Support face capture and display body temperature info during preview	
Operation Logs		Support face recognition and display comparison result	
		Support device list and device online status	
		Playback control, play/pause/fast forward/slow forward/step forward	
	Support 1/2/3/4 window division mode		
	Support capture and one-key to capture all channels		
	Support to enable/disable audio		
	Search video by calendar, date, storage location, stream type, etc.		
	Download video clip by file or by time		
	Query operation logs by time, type, user, etc.		
	Export log information		

## ENS-EYECONNECT-32 (For Windows)

### SPECIFICATION

MODEL	Model No.	ENS-EYECONNECT-32
DATA STATISTICS	Type	CLIENT VIDEO MANAGEMENT SOFTWARE
	Face Statistics	Show face data statistics in list or graphics according to different filter
	Visitor Flow Statistic	Manage up to 32 people counting camera in one zone and set configuration of people counting rule Preview of people counting camera Display peak number, current number and line chart in real time Support to set time duration of people counting, people capacity alarm, rapidly increased number alarm and number of people stay Show reported statistic in list or graphics according to different filter
SYSTEM CONFIGURATION	Common Settings	Set capture and download file path
		Automatic login
		Data backup/recover/clear up/re index (re index face capture and record)
		Change language and software skin
	Video	English
		Set save time of log and alarm log
		Set stream switch by automatically or manually
		Set play strategy, good fluency or minimum delay
Alarm Grade	Hardware decoding available for Windows version	
	Set download format, SDV, AVI and MP4 are supported	
Storage Management	Set alarm grade	
	Set recoding package time, format, stream type	
Intelligent Application	Set space strategy, storage location	
	Enable intelligent application to receive face capture pictures and face recognition results	
P2P Setting	Set face picture save duration by day	
	Check deletion strategy to set visitor flow statistic save duration by month	
ALARM	Real Time Alarm	Set P2P server region
		Real time alarm in Alarm Management, quick to play alarm video or real time video
		Support alarm filter by alarm grade
	History Alarm	Operator can handle and input comment to real time alarm
		Turn on/off alarm audio of software
	Query history alarm by time, source, status, user	
	Support alarm filter by alarm grade	
	Operator can handle and input comment to history alarm
