

HORIZONTAL BLANK PANEL

A horizontal blanking plate is designed to cover unused spaces in server racks, improving airflow, enhancing cooling efficiency, and reducing dust accumulation. Made from durable metal, it is available in various U sizes to fit different rack configurations.

FEATURES

- Improved airflow efficiency reduces turbulence by filling empty 1U and 2U spaces in server racks, directing airflow to where it is needed.
- Tool-less installation allows for quick and easy setup without the need for screws.
- Made from high-quality steel for long-lasting performance.
- Prevents dust and dirt from entering, reducing maintenance and the risk of equipment damage.
- A simple and affordable solution for improving the cooling performance of your server rack.

Material	Steel
Surface Finish	Powder-coated
Mounting Type	Screw-mounted
Installation Style	19"

ORDERING INFORMATION

Part Number	Description	Height (U)
151B-H01UX	1U Horizontal Blanking Plate	1U
151B-H02UX	2U Horizontal Blanking Plate	2U

X: R1(RAL 9004), R2(RAL 7035), R3(RAL 9010)
