

FLOOR STANDING CABINET

The Norden range of floor-standing cabinets is designed for communication rooms, data centers, and server rooms. Its 9-folded profile, it offers enhanced load-bearing capacity, structural stability, airflow and cooling efficiency, making it a perfect choice for demanding environments. Smart design and professional engineering provide easy installation and maintenance. Comply with EN 61587-1:2012, EN 60950-1:2006, DIN 41494 & EIA-310, RoHS Compliant.

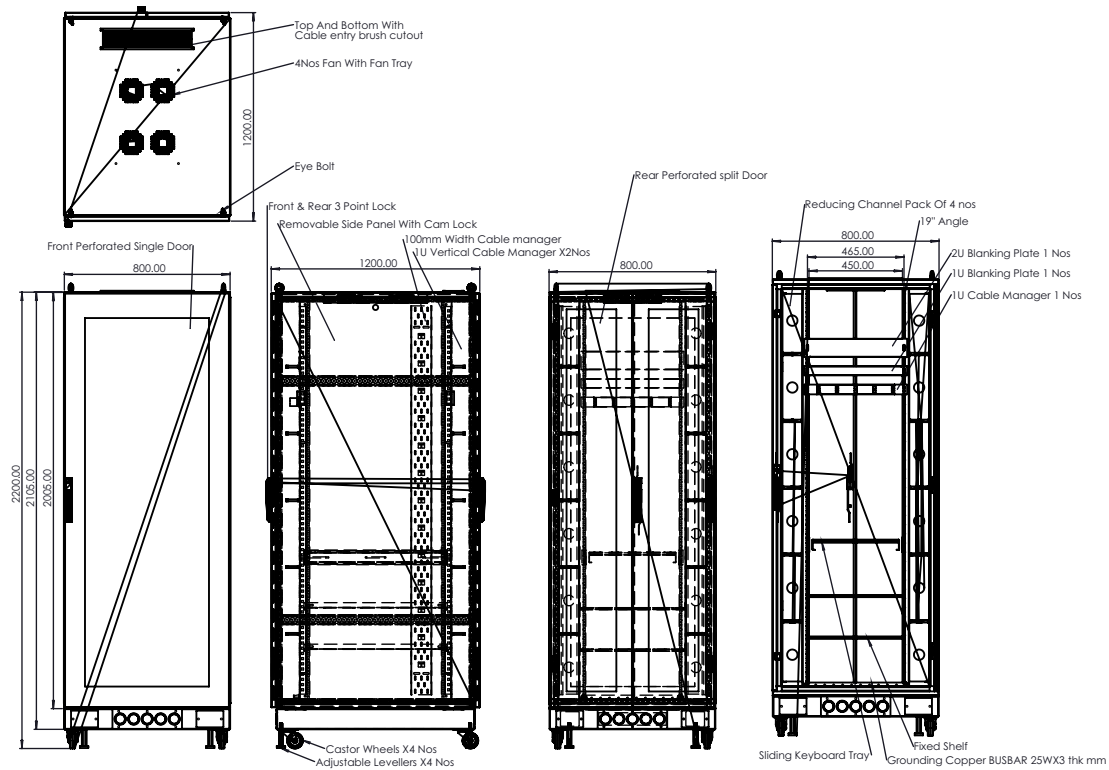

FEATURES

- Intelligent design ensures easy installation
- Front perforated door with three-point locking system
- Rear Dual perforated door with three-point locking system
- Removable side panel provides easy maintenance
- 19" installation
- Adjustable castor wheels & levellers
- Cable entry through top/bottom panel (4 Holes each) and fan mounting at top panel
- The 9-fold profile design increases the rack's strength and load-bearing capacity.
- Made from high-quality steel with powder-coated finishes for durability and corrosion resistance.
- Perforated equipped mounting panels and optional fans improve airflow and cooling.
- Modular design allows customization and compatibility with 19-inch rack-mounted equipment.
- Removable Equipped Mounting panels and cable management features enable easy maintenance and organization.
- Optional lockable doors and reinforced steel doors provide security.
- Integrated cable management ensures tidy, unobstructed airflow.
