

FACE PLATE E-SERIES

Norden E-series faceplates are designed to work seamlessly with any combination of Norden keystone jacks. They are available in both shuttered and blank (modular) configurations, providing flexibility for various setups. Each faceplate features a designated labeling area for easy identification. Supplied with M3.5 mounting screws, they are fully interchangeable with Global UTP patch panels. These faceplates offer an excellent solution for office environments that require multiple services at a single location.
