

Portable Facial Recognition Attendance Tracker

DESCRIPTION

The Portable Facial Recognition Attendance Tracker (NAC-4017 AT) is a rugged handheld facial recognition device designed for accurate attendance in mobile and outdoor environments. It supports fast and secure authentication using face recognition, NFC card, or password. Powered by Android 13 with 4G, Wi-Fi, and GPS connectivity, it enables real-time data synchronization and location-based attendance tracking. The IP68-rated industrial design ensures reliable operation in harsh site conditions. A high-capacity 5050mAh battery provides all-day field usage.
