

IP55 EXTERNAL CABINET WITH FLOOR-STANDING / POLE-MOUNT PROVISION

The Nordén IP55 External cabinet is engineered for outdoor telecom, networking and infrastructure applications, providing reliable protection against dust, rain and harsh environmental conditions. It supports standard 19-inch rack-mounted equipment and is provided with floor-standing as well as pole-mounting provisions for flexible installation. The cabinet is supplied with two cooling fans with filters and an internal PDU. The cabinet complies with DIN 41494 and IEC 60529 standards.
